GAMEPLAY

Controls

Main controls will be numbers 1 to 3. It will select what is shown in the terminal. Use your keyboard to input your choice.

How to Play

- When the game starts a random category will be assigned and have 50 HP.
- Afterwards select what type of monster you would like to hunt.
 - The points you make will depend on what enemy you choose to hunt.
- Select what attack you would like to use to defeat the enemy.
 - The attacks will determine the damage dealt to the enemy and the difficulty of the question
- The game ends when you have no HP left or all attacks have been used (questions have been answered).
- There will be a leaderboard to track the top 5 scorers.

THE NUMBERS

There are 3 question categories:

Difficulty/Attack	Damage
Easy	10
Medium	20
Hard	30

There are 3 type of enemies:

Type	Health	Bounty/Points	Damage
Common	10	100	10
Elite	30	250	15
Mythical	50	500	20

Streak Bonus:

+20 point bonus when streak is greater than or equal to 3
